

How to profile a shaped cooker hood

A number of manufacturers have changed the shape of the cookerhoods and have kept the same model numbers. To ensure you get the correct profile we are asking if you could make a paper profile and post it to us. Together with the model number.

Worktop

The glass sits on the worktop or upstand

Step 1.

Tape 3/4 sheets of A4 paper together. Slide up the back of the cooker hood. Pencil the shape of the underside of cookerhood also the sides of the cupboards if you have any.

Step 2.

On your template write your:

- Name
- Postcode
- Model number
- Tight width
- Tight Height

Step 3.

Please send to 33
Downham Close,
Arnold, Nottingham,
NG5 6PR

Step 4.

We will put these measurements into a drawing and email back to you for checking.
